

Our Members Say the Nicest Things...

Here's what just a few of our homeowner leader members have to say about their membership with CAI:

"CAI is a valuable resource for all of us in planned communities. I've been on both sides of the playing field, as manager and homeowner/trustee, and whatever my role, I keep my CAI membership active. Knowing that CAI promotes legislation to support planned communities, knowing that CAI connects me with other communities to share concerns and solutions, and knowing that CAI can make communities stronger—these are reasons "Why I CAI".

Every homeowner is a potential Trustee or committee member. I encourage every homeowner to join, even if you aren't ready to be active in your community. You will gain knowledge and confidence and be ready to hit the ground running when you step into that community leadership role.

For most of us, our home is our biggest investment. CAI works to keep that investment strong.

-Dr. Vicki Ehrhardt, Village Grande at Millers Run

"There are two major areas where CAI membership has been valuable to me as a board member: Through its publications, webinars, and events, CAI provides a wealth of information on many aspects of community living such as maintenance, finance, and so on. Networking opportunities are provided where you can make contact with various professionals and service providers. The learning opportunities and the knowledge and insight I have gained through the CAI membership has helped me to be a proactive board member and better serve my community."

-Ed Gertz, Meridian of Valley Square

"Before we joined CAI, two of us attended a Legislative Update presentation. My reaction was, "Wow!" I was board president and shocked how little I knew. Thankfully, our property manager encouraged us to join CAI in order to learn more about our roles and responsibilities. I firmly believe that all common interest community volunteers should join and be involved in CAI to take advantage of its many educational programs."

-Paul Raetsch, Horizons at Woods Landing
